

Logistics & Distribution Sector

Warehousing, road, rail, sea and air transits play a vital role in our daily lives. This sector has grown enormously in the UK in recent years and many companies choose to locate in the Midlands both as a central location but also due to good infrastructure and local facilities.

Adler Insurance Brokers has many years of experience with a wide variety of general haulage businesses as well as more specialist firms.

We offer a service to check contract conditions to summarise your use of and exposure to different trading conditions. This enables us to design and implement insurance contracts matched to those conditions and the liabilities which are imposed upon your business.

On this basis, the goods in your care - both for storage and haulage work will be correctly insured, and this will apply equally to your vehicles and other property and legal liabilities.

By way of example, the policy wordings we negotiate can usually be extended on request to include:

- Emergency Spillage response facility
- £10million Third Party Property Damage limit for Hazardous goods.
- £1million policy limit when airside (UK only).
- Employer's Liability limits to £20million

These are a selection of specialist areas for which we can provide bespoke insurance solutions:

- Fuel (including LPG) Distribution & Storage
- Waste Carriage
- Movement of Hazardous goods
- Chemical & Solvent Distribution
- Waste Transfer Stations

Adler Insurance Brokers will make a real difference to your business.
